

轮胎定型硫化机

Tyre Shaping And Curing Press

轮胎定型硫化机是汽车外胎硫化专用设备，可用于各种普通轮胎和子午线轮胎的硫化。具有机械式硫化机从42"到122"、液压式硫化机24"到170"系列规格，覆盖乘用车胎、卡车胎和工程胎全领域，满足乘用车胎、载重胎、工程胎/工程巨胎的制造要求，产品通过德国TUV和法国BV的CE认证。

Tire shaping vulcanizing machine is a proprietary equipment for vulcanizing automobile outer tires, which can be used for vulcanizing various ordinary tires and radial tires. It has a series of specifications for mechanical vulcanizing machines ranging from 42 "to 122" and hydraulic vulcanizing machines ranging from 24 "to 170", covering all fields of passenger tires, truck tires, and engineering tires, meeting the manufacturing requirements of passenger tires, heavy-duty tires, engineering tires/engineering tires. The products have passed CE certification from German TUV and French BV.
